Technical Data Sheet

Designation	**STORZ CAP WITH CHAIN**		
Brand	**IMPARTE/IMPARTEX**	**Ref. No.**	**STT25 to STT110**

General Description

Storz blank caps with chain are components used in firefighting systems to protect Storz connections and keep them intact. Their main function is to seal and protect water outlets, hydrants or pipework fitted with this type of flange, ensuring they remain in perfect condition when not in use.

Main functions:

Protect the hydrant valve or pipework when out of service;

Prevent the entry of dirt, dust, insects or other foreign bodies that could compromise the system;

Prevent water leaks and keep the installation watertight;

Storz caps ensure the protection and reliability of connections, contributing to the safety and proper operation of fire systems.

Features

- Aluminium Storz cap with rubber seal;
- Quality and durability;

Standards, certificates, marking and documentation

- Manufactured in accordance with DIN 14307;

Additional Products

- Seal(s);
