Technical Data Sheet

Designation **MOBILE HOSE REEL ON TROLLEY, WITH 30M TO 100M HOSE**

Brand **IMPARTEX / IMPARTE** **Ref. No.** **CR013 to CR018A**

General Description

The Imparte mobile fire hose reel is mounted on a wheeled metal frame, designed for easy transport and rapid intervention in emergencies.
Ideal for industrial and commercial environments or temporary events where mobility is essential.
The main features of the mobile fire hose reel are:

- Full mobility: it can easily be moved to the scene of the emergency, even in large, complex areas or areas without a fixed firefighting network.
- Fast response: it allows immediate intervention, reducing reaction time in critical situations.
- Versatile application: ideal for temporary locations (events, building sites), industrial zones, warehouses or outdoor areas without fixed systems.
- Easy operation: usually fitted with an easy-to-unwind hose and an adjustable jet branch pipe, so it can be used by operators with basic training.
- Lower installation costs: no building work is needed to install fixed systems, making it an economical and functional alternative.
- Simplified maintenance: as it is mobile equipment, inspection and maintenance are easier and quicker.
- Complement to existing systems: it can reinforce firefighting capacity in places with fixed systems, providing additional coverage.

Features

- Imparte hose reel consisting of two cold-rolled steel discs, ⌀530mm, fitted to a ⌀200mm drum, 70µm thermosetting electrostatic powder coating, RAL 3001 "Red";
- Brass swivel joint with axial feed from the mains;
- 1” brass ball valve;
- Semi-rigid fire hose 25mm, anti-static, abrasion-resistant, maximum working pressure 1.2MPa. Certif certified in accordance with EN 694:2001; black; with a 1” female end fitting at each end;
- 25mm branch-pipe nozzle with 3 positions shut-off/spray/jet, made of ABS and aluminium;
- The effective discharge range, at a pressure of 0.2MPa, must be no less than:
  - Straight jet 10m;
  - Cone spray 6m: angle no less than 45°;
  - Fan spray 3m: angle 90° ±5%;
- Mounted on a trolley made of 1” steel tube with two wheels, 10” rims and solid tyres whose size varies according to the hose length;

Standards, certificates, marking and documentation

- CE marking in accordance with NP671-1:2013;
- Certif CE Certificate of Conformity no. 1328-CPR-0009;
