Technical Data Sheet

Designation DRAWER-TYPE HOSE REEL FOR SERVICE RISERS, DOUBLE CABINET, 20M-25M-30M

Brand IMPARTE/IMPARTEX **Ref. No.** CR043

General Description

The Imparte service-riser hose reel is the ideal solution for anyone seeking organisation, accessibility and visually harmonious integration in a single system.
Developed for discreet installation inside the service riser, it combines in a single structure the optimisation of space, a lower risk of damage or interference and no need for direct access to the inside of the riser — making inspections and maintenance of the hose reel easier, an essential advantage in confined or hard-to-reach technical areas.
Designed for fire safety, the drawer-type hose reel reinforces the protection of infrastructure, contributing to a safer installation that complies with the requirements of modern buildings.
With a functional, easily identifiable design, the hose reel is integrated into a front pull-out technical cabinet, so it can be pulled or slid out. This ensures fast, intuitive access and immediate action in emergencies.

Features

- Cabinet made of 1.25mm electro-galvanised sheet steel, dimensions 347x1670x625mm, with 70µm thermosetting electrostatic powder coating, RAL 3000 "Red", compartment for a 6kg ABC extinguisher and doors with opening angle no less than 180°;
- Right-hand or left-hand door - optional;
- Imparte latch made of polyethylene, protected by a breakable acrylic seal for emergency opening;
- Tubular structure supporting the hose reel, which rests on two slides with travel stop, allowing it to be pulled out of the service riser;
- Imparte hose reel consisting of two cold-rolled steel discs, ⌀530mm, fitted to a ⌀200mm drum, 70µm thermosetting electrostatic powder coating, RAL 3000 "Red";
- Brass swivel joint with axial feed from the mains;
- 1" brass ball valve;
- Semi-rigid fire hose 25mm, anti-static, abrasion-resistant, maximum working pressure 1.2MPa, Certif certified in accordance with EN 694:2001; black; with a 1" female end fitting at each end.
- Impartex 25mm ABS nozzle with 3 positions spray/jet/shut-off, equivalent orifice ⌀10mm; hose reel and nozzle assembly coefficient K42, with 1" male thread;
- Nozzle holder and omnidirectional guide allowing the hose to be unwound in any direction;

Standards, certificates, marking and documentation

- CE marking in accordance with NP EN671-1:2013;
- Certif CE Certificate of Conformity no. 1328-CPR-0009;
