Technical Data Sheet

Designation RAL 3001 BOX WITH RAL 9001 DOOR, ELECTRO-GALVANISED, FOR SIAMESE CONNECTION

Brand IMPARTE/IMPARTEX **Ref. No.** CXS01

General Description

Fire cabinets are essential structures in any firefighting system, designed to protect, house and extend the service life of the equipment.
They are generally installed in strategic, easily identifiable, easily accessible and unobstructed locations.
They safeguard the equipment needed for an effective and efficient immediate intervention and/or for the fire brigade's intervention.
Cabinets should be checked and maintained periodically to ensure the equipment is operational.
Cabinets come in a wide variety of sizes, with different latches, recessed or wall-mounted, but always made of durable materials resistant to impact and/or vandalism.
Imparte S.A. manufactures all types and sizes of fire service boxes; if your project needs a box made to custom dimensions, contact us by email at geral@imparte.pt
