Technical Data Sheet

Designation **IRON BARRIER OR SIGNAGE POST**

Brand **IMPARTE/IMPARTEX** **Ref. No.** **DV22**

General Description

Imparte barrier posts are the ideal solution for organising queues and guiding the public in a practical and efficient way. Designed to ensure a smoother flow, they help keep order in busy spaces such as museums, exhibitions, events, shops or receptions.

They are equally ideal for marking restricted-access areas, ensuring that only authorised people enter areas such as warehouses, offices or technical buildings.

Made entirely of iron and weighing around 6kg, these posts offer superior stability and heavy-duty performance, designed for intensive and long-lasting use.

Features

- Barrier post with all-iron structure and 70 µm thermosetting electrostatic powder coating, available in RAL 3000 “Red” and RAL 9001 “White”;
- Flat, robust square base, ensuring stability and firmness on the floor;
- Height: 90cm;
- Approximate weight: 6kg;
- Easy to carry;
- Suitable for indoor or outdoor use;
- Low maintenance;

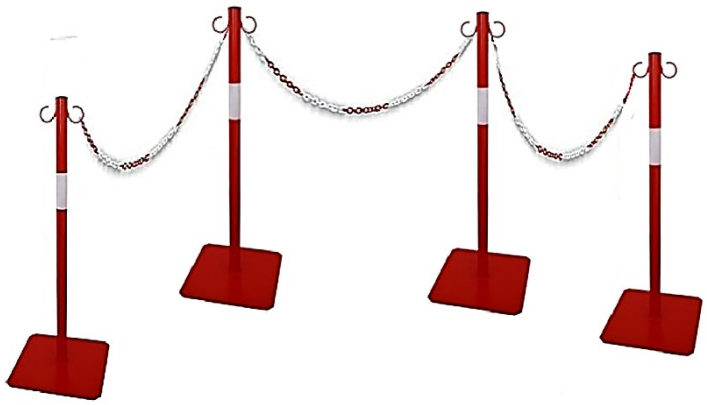

Additional and/or optional products

- Red and white polyethylene (PE) signage/barrier chain not included;
- PE signage/barrier chain in other colours, on request;
- Post painted in another RAL colour, provided it is approved in the project/by site supervision;
- Photoluminescent signage in accordance with 92/58/EEC not included;

How to order

- Ref. DV22_Barrier post (unit).

As an innovative company, IMPARTE S.A. reserves the right to change product specifications, models and standard equipment without prior notice and without incurring any obligation.
