Technical Data Sheet

Designation SPILL CONTAINMENT TROLLEY / ABSORBENTS TROLLEY

Brand IMPARTE / IMPARTEX **Ref. No.** DV41

General Description

This spill kit is a portable solution designed for a fast, effective response to accidental spills of industrial liquids, both oily and water-based.
It contains absorbent materials in different formats needed to neutralise, clean up and dispose of residues from accidental spills.
Its wheels, front roll dispenser, rear compartment and easy access make this kit an important item in areas at risk of spills.
Ideal for industrial plants, car parks, workshops and any environment where potentially hazardous liquids are handled.

- Versatility: effectively absorbs a wide variety of liquids, including oils, greases, coolants and water.
- Speed: the kit components allow fast containment and absorption, minimising the impact of the spill.
- Easy to use: the components are easy to identify and use, even in emergencies.
- Design: ergonomically designed trolley with tilt/stop function, minimising back strain.

Features

- Transport trolley built from heavy-duty metal tube, with plastic and rubber wheels, painted in RAL 5005 “Safety Blue” epoxy;
- Bag of hydrophobic plant-based granular absorbent, 15kg, 65 L capacity;
- Kit of 4 oil-absorbent rolls 20cm x 3m;
- Price, Quality, Performance, Imparte;

Additional Products

- Painted in another RAL colour, provided it is approved in the project/by site supervision;
- Photoluminescent signage in accordance with 92/58/EEC not included;
- We make custom spill containment trolleys to the Customer's requirements, with high-quality finishes and different customisation options/items for your project;

How to order

- Ref. DV41_Spill containment trolley.
