Technical Data Sheet

Designation **SIX-WAY WATER DISTRIBUTION MANIFOLD, 4” INLET x 6 STORZ 52 OUTLETS**

Brand **IMPARTE/IMPARTEX** **Ref. No.** **MR09 R4”**

General Description

The Imparte six-way water distribution manifold, 4" x 6 Storz 52 outlets, is designed to offer high reliability, consistent performance and safe operation in demanding environments.
Built from durable materials, it ensures mechanical strength even under intensive conditions.
Its compact design makes handling and installation easier.
Used in firefighting networks to divide a main water flow into multiple attack/distribution lines.
It is used in industrial fire networks, by fire brigades, in temporary supply systems and for flow division in urban or forest settings.

Features

- Body made of black iron tube with 70µm thermosetting electrostatic powder coating, RAL 3000 "Red";
- Inlet connection 1 × 4“;
- Outlet connection(s) 6×Storz 52, ensuring compatibility with standard fire hoses;
- Optimum performance/Maximum safety;
- Equipment and mounting and/or connection accessories not included;

Standards, certificates, marking and documentation

- Storz couplings to EN517 or equivalent;

Additional Products

- Photoluminescent signage in accordance with 92/58/EEC;
- Outlets for various coupling models such as Guillemin, Camlock, etc. .
- Made in AISI 304 or 316 stainless steel;

For a custom product, please provide the following information:

- Exact dimensions of the required product;
- Number and size of inlets;
- Number and size of outlets;
- Required accessories (Storz, Camlock, valves, ...);
- Technical details relevant to the project;
- Specific site conditions or applicable regulatory requirements;

This information is essential to ensure the compatibility, functionality and quality of the solution supplied.
