Technical Data Sheet

Designation **FIRE BLANKET, SIZES 1x1, 1.20x1.20 AND 1.20x1.80 M**

Brand **IMPARTEX / IMPARTE** **Ref. No.** **MT01; MT02; MT03**

General Description

A fire blanket (also known as a fire smothering blanket or fire suppression blanket) is a safety device designed to extinguish small fires.
When thrown over a small fire, the blanket smothers it by cutting off its oxygen supply; it can also be used, for example, to wrap a person whose clothes are on fire while protecting whoever is helping.
The blanket includes a fireproof layer of flame-resistant materials (such as Kevlar yarn) to ensure its integrity, giving the user confidence in the event of fire.
Completely asbestos-free, non-irritant and tear-resistant.
Suitable for use in countless environments, from kitchens, factories, offices, shops, schools, restaurants, hotels, short-term rentals, boats and laboratories to the home, etc.

Features

- Fire blanket made of fibreglass as the base layer with a silicone rubber coating;
- Sturdy red plastic case with hole for wall mounting;
- Instructions in Portuguese and English, including illustrated pictograms for first use;

Dimensions

- 1x1m; 1.20x1.20m; 1.80x1.20m.

Type of Application

- Wall mounting;

Standards, certificates, marking and documentation

- Manufactured, tested and certified in accordance with BS-EN-1869:1997;
- CE marking in accordance with NP671-2:2013;
- *BAFE (British Approvals For Fire Equipment) approval;*

Additional Products

- Other photoluminescent signage in accordance with 92/58/EEC;

How to order

- Ref. MT01: 1x1m;
- Ref. MT02: 1.20x1.20m;
- Ref. MT03: 1.80x1.20m.
